To whom it may concern:

I would like to file a dispute regarding an unusually high water bill I received. I recently had a meter change out last month then received a bill this month that was approximately 7 times higher than my regular bill. Usually, I pay between \$130-150 quarterly, but this bill was \$897.00. I called and spoke with Michelle who tried to review the bill with me and she stated it looks like it was due to automatic estimates over the last several years.

My concern is that I was never contacted by phone or mail that there was an issue with meter readings. I have been in the apartment for over 7 years and never received a bill like this. I am a single mother of 3 children and cannot afford such a huge increase. I also do not feel I should be held responsible for this huge bill because I was not notified in a timely manner and it is neglectful on the water department to estimate usage for YEARS. The 1st time I was contacted was when the meter needed to be changed out in March 2025. I am asking if this can be investigated further to determine if this is a clerical error, meter error, etc. The clerk said she was new and did see actual meter reads in 2019 and 2018, but could not speak for the previous clerk as to why or how this occurred.

Please contact me regarding this issue as soon as possible. I can be reached at 585-615-2356. Thank-you for your attention to this matter.

Sincerely,

Subject: RE: Break Request

Michelle,

After talking to John Gavenda this morning, I do not think we have legal grounds to grant a reduction in the bill. There was no water that was dumped on the ground so a reduction in sewer charges is not an option. I am in favor of setting up a payment plan that the customer can afford to settle this account.

Thanks

Jay
